## Finding Aid for KTTC News out-takes Collection, 1976-1991

### Collection Overview

**Title:** KTTC News out-takes Collection, 1976-1991

**Primary Creator:** KTTC-TV, Rochester, Minnesota

**Extent:** 534 U-matic tapes and 605 16mm film reels totaling 588 hours, 35 minutes, and 9 seconds

**Arrangement:** The KTTC News out-takes Collection is arranged into two series based on format of the material.

**Series 1. 16mm film footage:** The first 185 reels are arranged according to labels indicating reel number (2-185). Reel numbers were assigned when these were originally indexed and the dates (in most instances) and contents of the reels were unknown. The remaining reels are arranged chronologically where the date is known, with undated material at the end. The reels are physically arranged on the shelves by container size to optimize use of available space. With viewing, dates may be determined for material that was undated at the time of digitization.

**Series 2. U-matic tape footage:** Arranged chronologically, with a few exceptions.

**Languages:** English

### Scope and Contents of the Materials

This collection of audio visual material contains news footage recorded by KTTC-TV between 1976 and 1991, thus dating from the time KROC-TV transitioned to KTTC-TV. Content was recorded throughout southeastern Minnesota, as well as parts of northern Iowa and western Wisconsin. Stories reported cover a range of subject matter, including local and national politics, weather incidents, crime, sports, local land and business developments, education, the environment, and more. Since the footage consists of out-takes, it is not the final finished material that would have been broadcast. The footage was originally captured on 16mm film and U-matic tape. It has since been digitized to .avi format for master preservation files and .mp4 format for access files. These digital files are stored on hard drives.

### Biographical Note

Excerpted from [www.kttc.com](http://www.kttc.com):

In July of 1953, KROC-TV, the first television station in southern Minnesota with a tower height of 600 feet, went on the air from a site four miles west of the city of Rochester in a Quonset Hut. The TV studios, offices, and transmitter were housed within the same building as the studio, which was only the size of an average living room. Originally, KROC-TV was signed on as sister station of KROC Radio. After those early days, KTTC (KROC) moved into the 601 Building in downtown Rochester and remained there until 2002 [when KTTC moved to 6301 Bandel Road NW in Rochester].

When laws were passed in the mid-1970s banning ownership of multiple stations or media in a single market, the television station had to be sold. In 1976, Quincy Newspapers, Inc. purchased the station from Southern Minnesota Broadcasting and the call letters were changed to KTTC (Total Tri-state Coverage), referring to [its] coverage that spans from southeastern Minnesota to northern Iowa to parts of western Wisconsin.

In [its] market, [KTTC was] the first on air, first in color, first in stereo, first in the states of Minnesota and Iowa to broadcast in full power digital and...the only local affiliate with [its] own weather radar and storm chaser unit.

The NewsCenter is the largest department in the station, and has to be, to cover [its] geographically large market. Additionally, the KTTC NewsCenter produces the 9 p.m. news on [its] local Fox affiliate, KXLT...While KTTC and KXLT are based in Rochester, Minnesota, the other stations in [its] market are found in Austin, Minnesota and Mason City, Iowa.

### Administrative Information

**Repository:** Olmsted County Historical Society/History Center of Olmsted County

**Accessions:** 1995.142

**Accruals:** The precise acquisition of this material is somewhat unclear. A deed of gift for 11 boxes of news film, 1978-1982, was completed in July of 1995. According to former archivist Sherry Sweetman, the 16mm film was found when moving items into the new archives addition [1995]. Other films and tapes were acquired when KTTC moved from its old studio to a new studio on Signal Hill.

At some future date, it is possible that the Olmsted County Historical Society will obtain additional footage.

**Access Restrictions:** There are no access restrictions.

**Use Restrictions:** Permission to publish, quote, and reproduce must be secured from the copyright holder.

**Preferred Citation:** KTTC News out-takes Collection. Olmsted County Historical Society, Rochester, Minnesota.

**Processing Information:** Processed by Krista Lewis, January to November 2018.

**Finding Aid Revision History:** Created by Krista Lewis, September 2018.
