#### **Biographical Note**

Rochester High School began with Rochester Central School (Old Central School), which opened on May 25, 1868, at what would later become the site of the Mayo Building. Students from the primary grades through high school were taught there. In 1895 the high school moved into the Darling Business School. In 1910 the Darling school building was torn down to make way for a new high school on the same site. While under construction, high school classes were taught in what became the Commercial Hotel. Classes began in the new high school in 1911. An addition was made to the building in 1916-1917. Meanwhile, on an adjacent site, the New Central School Building was constructed in 1926-1927, which housed an elementary school. In 1940, an addition was made to the New Central School Building and dedicated as the Central Junior High School. That same year, the high school building, which was connected to the Central School by a tunnel, was renamed the Coffman Building. With the opening of another new high school building in 1958, Rochester High School adopted the name John Marshall High School. It is currently part of the Rochester Public School system, district #535.
